## SPECIAL PRICE LIST NO.98

# Complete 97-Piece Morgan Silver Dollar Collection

A ninety-seven (97) piece Morgan silver dollar collection — the dream of thousands of collectors — can now be yours! That's right! Now *you* can be among the select few who will experience the joy of owning this massive collection.

It has taken almost one full year of constant searching to locate the silver dollars necessary to assemble the few sets we have in stock. And no wonder! Each Morgan collection will contain one silver dollar of every date and every mintmark struck for circulation. This includes the real toughies — 1879-CC, 1889-CC, 1893-S, 1894, and 1895-O, for example — as well as the more common dates. (Naturally, varieties and the proof-only 1895 are not included.)

This Morgan dollar collection is not by any stretch of the imagination a "minimum grade" set. The silver dollars comprising it will grade at least Very Good while the vast majority will be *much better!* Many dollars will be in Very Fine, Extremely Fine, and even Mint State condition! You may upgrade, if you so desire, as your budget permits. But if you do, you will still have the satisfaction of knowing that you are one of the few who ever will own such a collection. And because it comes housed in three deluxe bookshelf style albums, this collection is ready for immediate display and viewing.

The Morgan silver dollar is perhaps the most popular of all United States coins. This popularity is responsible for the dramatic increase in value Morgan dollars have shown over the last three years. While no one can guarantee the future, activity at recent coin shows indicates the Morgan dollar's popularity is continuing at an all-time high. And of the thousands and thousands of Morgan dollar collectors, only a small number will ever be able to claim that they own the ninety-seven piece set. Be one of these few people. Place your order today.

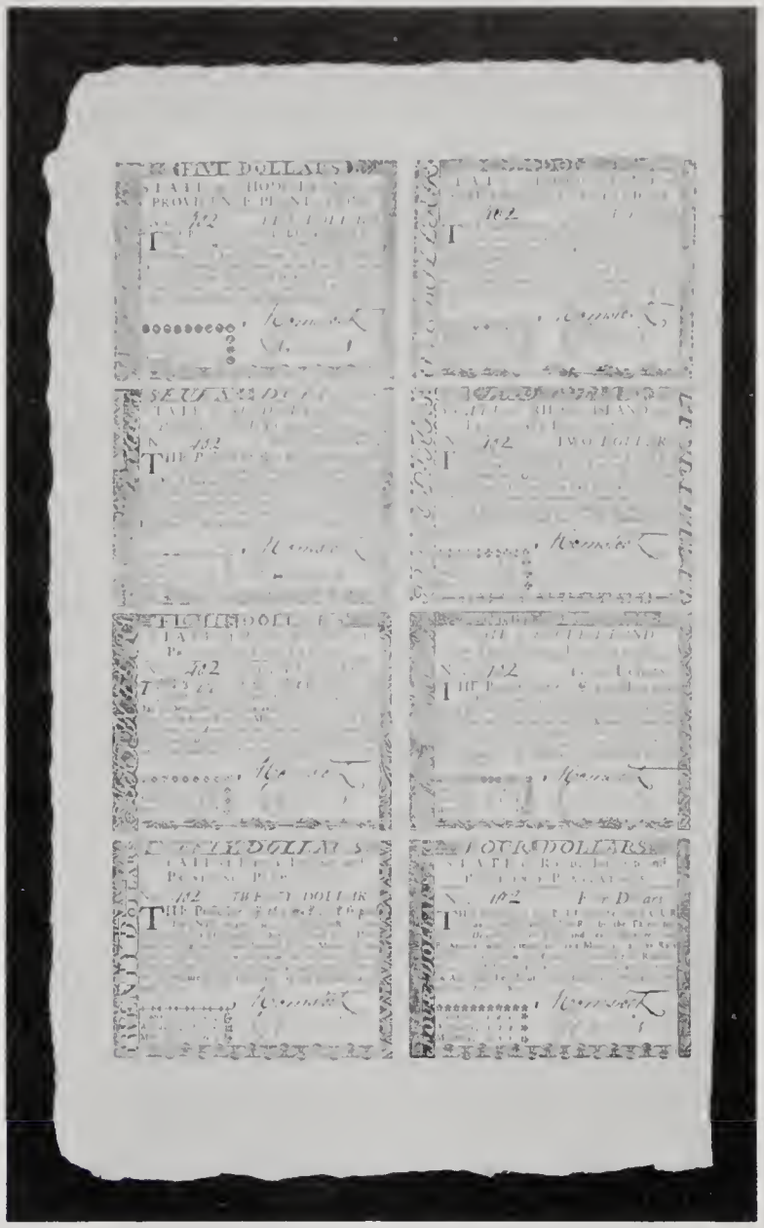
# Museum Quality Uncut Colonial Currency Sheet



For the collector who is looking for an outstanding showpiece to add to his collection, we have the perfect item — a museum quality uncut sheet of eight different Rhode Island notes almost 200 years old!

Printed in 1780 in red and black colors by Hall & Sellers of Philadelphia, these sheets are a visual reminder of the years before the United States became an independent nation. When they were printed, this country was fighting for its very existence: George Washington was in command of the colonial army; the battle of Yorktown was still a year away; and it would be three long years before American independence would be officially recognized by England. Clearly, their historical value is obvious.

Eight different notes form each sheet. Because our coinage system did not yet exist, these notes were deemed payable in Spanish milled dollars! The face value of the notes comprising each sheet are: 1, 2, 3, 4, 5, 7, 8 and 20 dollars. Each note also carries the flourished pen-signatures of Adam Comstock and Caleb Harris.

Uncut sheets such as these are rarely encountered. To imagine that any could survive until 1978 is almost too much to ask. But survive they did! And now *you* may own one of these historical and scarce uncut sheets. One of our rare currency buyers recently obtained a small group (less than ten) of the 1780 Rhode Island sheets, each amazingly fresh and bright. Regularly available for $395, these outstanding sheets will probably not last long at the special one-month-only price of just $369.50! Hurry! Place your order today for this scarce and historical item.

# SIX SCARCE INDIA PROOF SETS WITH INCREDIBLY LOW MINTAGES

## Await Your Collection!

This unique collection of six India Proof Sets includes ancient and modern designs, a tribute to the country's greatest leader, a 25th Anniversary of Independence commemorative, and coins that are round, square, hexagonal and scalloped. Plus, the 10, 20 and 50 Rupee coins are minted in silver!

Here's the best part . . . all six sets have mintages under 10,000!

1969 Proof Set — The only proof set ever issued honoring Mahatma Gandhi, the country's foremost leader, includes four centenary coins bearing his profile. The 10 Rupee is the first coin of that denomination and the first silver coin issued since India's independence. Mintage: 9,147.

1970 Proof Set — This set celebrates the campaign of the United Nations Food and Agriculture Organization with the motto, "FOOD FOR ALL" appearing on two of the coins. The 1970 set has the lowest mintage of the entire collection — 3,046.

1971 Proof Set — Repeating the FAO theme, this set marks the last year of this design and the final appearance of the 10 Rupee in 80% silver and the 34 mm size. Mintage: 4,375.

1972 Proof Set — India's 25th Anniversary of Independence is commemorated on the newly designed 10 Rupee coin. Mintage: 7,895.

1973 Proof Set — For the first time, a 20 Rupee silver coin was introduced to the set and inscribed "GROW MORE FOOD" as India's theme for the year. Mintage: 7,563.

1974 Proof Set — A new 50 Rupee silver coin, the highest denomination ever issued by the Republic, is included and a new theme of Planned Parenthood introduced. Mintage: 9,138.

# A Complete Mint Set of Morgan Dollars

## Six Different Coins in Beautiful Mint State 65

This set will contain the following MS-65 silver dollars:

1. 1880-S
2. 1884-CC
3. 1885-O
4. 1886
5. 1921-D
6. An extra coin to show the obverse!

It has been several months since we last offered this very popular item. The reason is the plain and simple fact that we cannot ever seem to assemble these sets in a sufficient quantity to justify their offering. They are just too difficult to locate in Mint State 65! But recently, our fortune changed. We now find ourselves in the position of having twenty all-mint Morgan dollar sets in stock, and they are ready for immediate purchase!

Each set will contain one Mint State 65 Morgan dollar from each of the five mints which issued it: Philadelphia, Denver, San Francisco, New Orleans, and Carson City. The real "toughie" is the Denver issue. 1921 was the only year Denver issued this coin, and even though over 20 million were produced, true mint state specimens are very hard to find. Over 90% of the 1921-D's offered us are not even mint state! And of those which are, only a small percentage can be called Mint State 65. An extra dollar will also be included as an obverse type. Like the other five coins, this coin will be Mint State 65. Further, all six coins will be mounted in a custom three-piece hard plastic holder designed expressly for this set. This holder alone is a $10 value.

Mint state silver dollars have been steadily increasing in value as collectors and investors begin to realize just how scarce these dollars really are in Mint State 65. This set is ideal for the type collector or for those on a limited budget who cannot afford a complete date set of dollars. But hurry! Choice Mint State 65 silver dollars are becoming more difficult to locate. It may be a long, long time before this set is ever offered again.

# Currency Estate Sale

## Something for Everyone!

The following notes were part of a large estate our rare currency buyers recently purchased. Instead of selling these notes to another dealer, we decided to let you have "first pick". Examine the list carefully. Each note was chosen for its outstanding value and proven popularity. You will undoubtedly find something of interest.

1. 1928 Series Gold Certificates

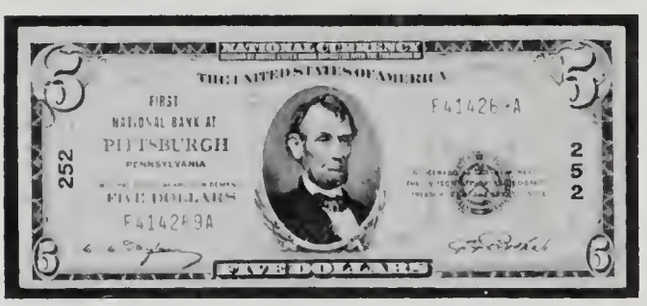
   These notes are from a bygone age, an age when gold coins freely circulated and paper money was backed with gold! These notes have gold colored seal and serial numbers and the words "GOLD CERTIFICATE" printed on the front. Two different denominations are available:

   $10, FINE or better . . . . . $19.50
   $20, FINE or better . . . . . $29.50

2. 1929 Series National Bank Notes

   These pre-Depression notes have brown seals and were issued by National banks throughout the nation. The name of the bank can be found boldly printed on the front of each note. (Our choice.) Three different denominations are available:

   $5, FINE or better . . . . . $14.50
   $10, FINE or better . . . . . $19.95
   $20, FINE or better . . . . . $27.50



3. 1934-A North African Silver Certificates

   Unlike other silver certificates, the seal of this note is printed in *yellow*. They were issued to American soldiers before the invasion of North Africa in the Second World War.

   $10, FINE or better . . . . . $17.95

4. 1935-A Experimental (R and S) Silver Certificates

   These experimental notes have either a red "R" or "S" printed on the obverse. They were issued to test the type of paper used in their printing. In VG-F condition, these notes catalogue in the O'Donnell catalogue for $25 each. While our small quantity remains, you may purchase one of these notes in VG or better condition for just $16.50. (Our choice of either one R or S.)

# A Territorial Commemorative
## FOR THE BADGER STATE

Only 25,015 Wisconsin Territorial Centennial Commemorative Half Dollars were issued in 1936 to celebrate the 100th anniversary of the establishment of the Territory of Wisconsin. With its low mintage and attractive design, this coin has become extremely popular with collectors. This coin features a badger, the state animal, on the obverse. An arm holding a pick over a mound of lead ore is depicted on the reverse. This is symbolic of the lead mines in the southwestern part of the state which contributed to the formation of the Wisconsin Territory.

It is no secret that United States commemoratives have become very popular in recent years. This popularity has been reflected in higher prices and the Wisconsin commemorative is no exception. The few available choice mint state specimens are slowly disappearing from the market.

If you have any intention of acquiring this coin, *now is the time!* We currently have a few Mint State 65 specimens available for only $110 apiece. The available supply keeps getting smaller and smaller, so order NOW!

# A Most Unusual Coin

*Actual size is 18 mm.*

In 1908, the United States began issuing a coin bearing a most unusual design feature. Unlike every other coin issued until that time by the United States, the main devices and legends of this coin are *incused.* That is, the design lies *below* the surface so when viewed from the side, the coin appears flat! This unusual coin is the beautiful 2½ Dollar Indian Head gold piece, issued from 1908 through 1929.

The 2½ Dollar Indian Head features on its obverse the bust of a proud and noble male Indian wearing a full feathered headdress. The reverse has the bald eagle perched on a bundle of arrows. This striking design has made it one of the most popular of all United States gold coins. And in brilliant mint state condition, it carries one of the smallest price tags of any United States gold coin — a very obvious incentive for both the collector and investor alike! Surprisingly though, in mint state condition, this coin is very elusive.

Countless millions of United States gold coins were melted after they were withdrawn from circulation in 1933. Undoubtedly, an untold number of 2½ Dollar Indian Head coins were included. Many of those which did survive have either been circulated or damaged through use in jewelry. This has resulted in a *very limited number* of mint state specimens available for today's collector. And because of its unusual design, the 2½ Dollar Indian Head gold coin is very difficult to grade. Therefore, when adding this coin to your collection, turn to the dealer with whom you have confidence — Paramount. We have in stock several examples of this coin in lustrous Mint State 60+. Each is completely original and would be an attractive addition to any collection or portfolio. Place your order today. We guarantee you will be pleased not only with the beauty of this coin, but also with our conservative grading.

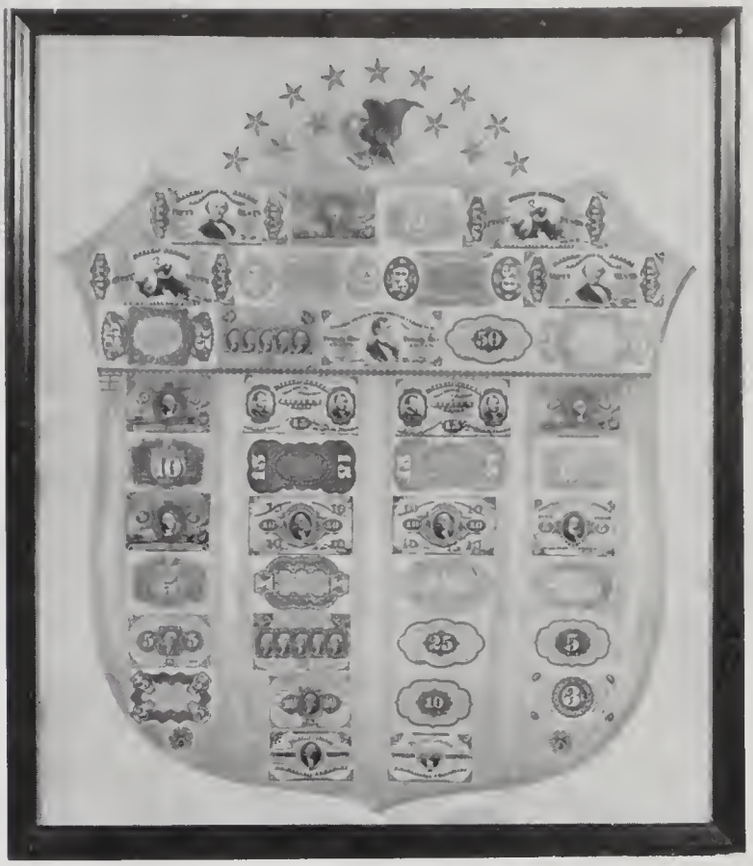
# Rare and in Demand

# Fractional Currency Shields



One of the rarest and most popular of all syngraphic (paper money related) items are *Fractional Currency Shields.* Colorful and historical, these shields have been in strong demand for years, but are rarely encountered. Whenever one does appear at auction, it is usually subject to very spirited bidding.

Fractional Currency Shields were made by the U.S. Treasury Department in 1866 and 1867 as a visual aid for banks and post offices in the identification of counterfeit fractional notes. Every shield contains thirty-nine (39) *specimen* notes, each printed only on one side, depicting either the obverse or reverse of a particular note. Seldom available, specimen notes are usually "quick sellers" whenever they appear.

At the time, unsold Fractional Currency Shields were stored in the basement of the Treasury building. Unfortunately, there was a fire and many shields suffered water damage. Today, almost without exception, every shield encountered exhibits water stains to some extent.

The field of paper money collecting is growing very fast in popularity with many collectors concentrating in specific areas. One area proving to be quite popular is fractional currency. As the number of serious collectors grows, the demand for Fractional Currency Shields is likely to also grow, causing this already scarce item to become even scarcer. Don't wait until the demand becomes any greater! Obtain your 111-year-old Fractional Shield now!

Paramount is fortunate to be in the position of having two attractive examples of this scarce and desirable item in stock. With the growing demand for fractional currency, this may be the last time for quite a while that we will be in this position. Don't wait until it is too late! Place your order today for one of these interesting, historical, and scarce Fractional Shields.

1867 Era Fractional Currency Shield, Some Water Staining as Expected, Thirty-Nine Specimen Notes, Only. . . . . **$2450.00**

# United States Silver Commemoratives

United States silver commemorative coins include some of the most beautiful and artistic designs of any United States coinage. Their beauty and boldness of relief is admired by collectors throughout the entire world. Their mintages are consistently small, often less than 20,000 pieces, and according to the respective editions of *A Guide Book of United States Coins* (Red Book) by R. S. Yeoman, the fifty-piece commemorative type set has more than tripled in value in the last ten years. Yet, many United States commemoratives can still be purchased in mint state condition for less than $50 each.

Considering their low mintages, unique designs, and historical interest, United States silver commemoratives may certainly be a series whose future is clear.

# MS-65
# 1897-S MORGAN DOLLARS

## Special Price--This Month Only

In our many years in numismatics, we have discovered numerous reasons why people collect coins. One of the most popular reasons is beauty. In a sense, every coin is a genuine work of art. Depending on individual tastes, some are beautiful, some are not. If you don't believe this, just look at the most popularly collected series today. There are the Walking Liberty half, Mercury dime, Standing Liberty quarter, Saint-Gaudens double eagle and, of course, Morgan and Peace silver dollars.

Morgan Dollars, when fully struck and lustrous, are indeed magnificent coins. Unfortunately, many of these coins, although mint state, are not fully struck and/or lustrous. The premium quality coins naturally will bring premium prices.

During the late 1890's, there is one San Francisco Morgan Dollar which particularly stands out. That is the 1897-S — a date which is frequently encountered fully struck. The LaVere Redfield Collection contained a number of 1897-S's, which, as a date, has increased substantially in value in recent years. In 1968, *A Guide Book of United States Coins* (Red Book), by R. S. Yeoman, listed the 1897-S at $9. In 1973, it was only $15. As this ad is written, the 1897-S has increased to *over $70 on the wholesale level!* Our normal selling price for this date is $89. For the next month, you may buy a *conservatively* graded *MS-65* specimen for only $82.50, or three for $239. You save $6.50 on a single coin and $28 with the purchase of three!

With the dollar market as hot as it is, it is difficult to find real bargains. Remember, too, *like all mint state silver dollars we sell,* this coin carries our exclusive *SIX-MONTH* money back guarantee.

1897-S Redfield Dollar, MS-65, Regularly ~~$89.00~~, Special This Month ..... **$82.50**

Extra Special! Three 1897-S's, MS-65, Regularly ~~$267.00~~, Special This Month .... **$239.00**

(Offer good only through March 31, 1978.)

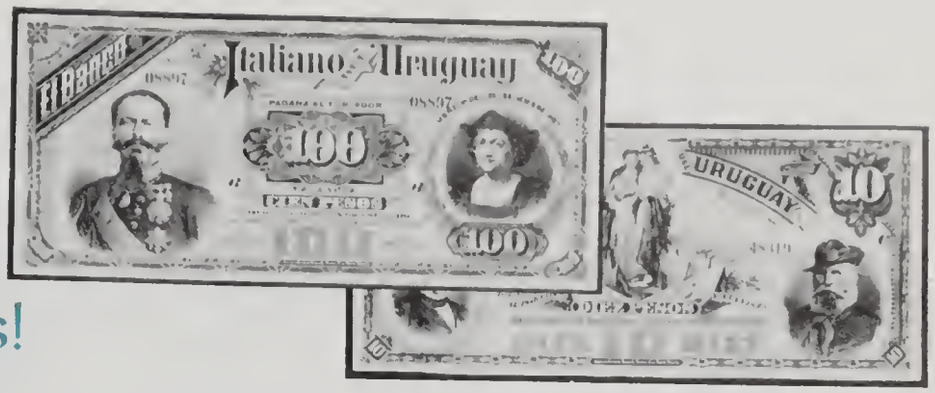
# A Uruguayan Salute to Italian Heroes!



In September, 1887, the Banco Italiano del Uruguay contracted with the American Bank Note Company for the printing of a new issue of notes. The 10 Pesos note featured the portrait of Garibaldi, the great Liberator of Italy, while the 100 Pesos showed portraits of Christopher Columbus and of Victor Emmanuel I, the great "Unifier" and first modern King of Italy. We have recently secured a small group of these notes in Uncirculated and crisp condition. They are the size of the old U.S. Large Notes and are extremely colorful. The 10 Pesos, red and blue on obverse, has a yellow security grid overprinted on a blue reverse design of the seated figure of "Uruguay" surrounded by symbols of progress and commerce, while the 100 Pesos note, beautifully printed in a light green and red on the obverse, has a similar yellow and blue reverse showing vaqueros herding cattle and a large vignette of a steer, the source of much of the wealth of the country.

For a limited time we are offering this pair of beautiful and historic notes, Uncirculated, for only ..... $24.95

# A Scarce Variety the 1879-S Concave Breast Dollar

By taking advantage of this tremendous savings opportunity, you can add a scarce and very desirable *mint state* Morgan silver dollar to your collection at a savings of up to 25% off its 1978 Red Book value!

Before the San Francisco Mint received the new and modified dies for the 1879 silver dollar, it struck a small quantity of 1879-S dollars with the older 1878 reverse design dies. This small issue can be easily recognized. First, the eagle has a flat (concave) breast. And second, the top arrow feather of the arrow held by the eagle is parallel to the other feathers. On the modified dies which were used to strike the vast majority of 1879-S dollars, the eagle's breast is rounded and the top arrow feather is slanted. This design difference is so important that it is pictured on page 154 of the 1978 edition of *A Guide Book of United States Coins* (Red Book) by R.S. Yeoman! But the best part is the price.

The scarce concave 1879-S Morgan dollar lists for $40 in "Unc" in the 1978 Red Book. But you can save $10 — that's 25% — through this offer and purchase the 1879-S concave breast dollar in Mint State 60 for only $30. Or, you may purchase this same coin in the more desirable Mint State 65 for just $36. That's still 10% under Red Book! But we only have a few of these very popular coins in stock. Order soon.

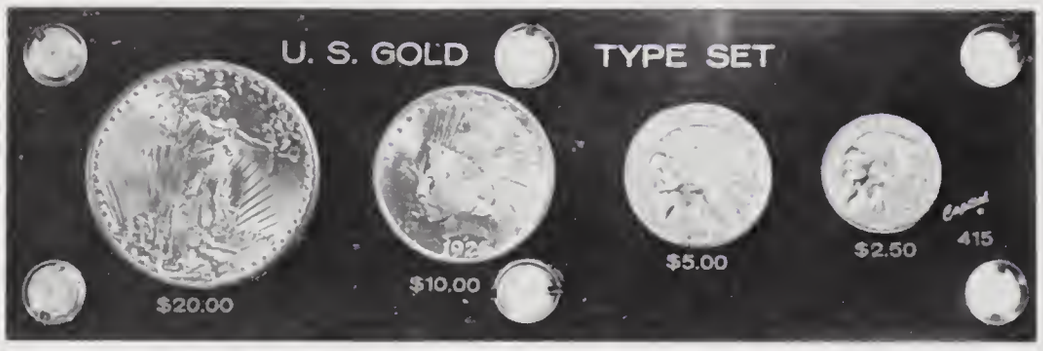
# GOLD



# AN ITEM OF LASTING BEAUTY

Gold — the ultimate acquisition. There is not a collector alive who would not like to see brilliant, glistening gold in their collection.

We have carefully assembled two different United States gold type sets, each containing a $2½, $5, $10, and $20 gold coin in brilliant uncirculated (Mint State 60 or better) condition. The first set will feature coins with the classic Liberty Head design. This design was used from the late 1830's into the twentieth century. The second set includes the popular $2½ and $5 gold coins with the incuse Indian Head design. (They were the only coins issued by the United States whose design was actually *below* the surface of the coin.) Also included is the $10 Indian Head gold coin and the magnificent $20 Saint-Gaudens. The Saint-Gaudens is often referred to as the most beautiful coin ever issued by the United States, and one of the most beautiful in the entire world.

Either set would make a handsome addition to any collection — an addition certain to bring enjoyment and pleasure for many years to come. Gold. You've heard so much about it. Now, it can be yours.

# Scarce Plate Block At Below Catalogue!

The beautiful five dollar Calvin Coolidge stamp is the key value of the 1938 *Presidential Series*. When these stamps were issued, twenty dollars was a considerable sum of money to invest in a plate block. Consequently, very few people were fortunate enough to acquire one of these handsome plate blocks. Today, mint examples are scarce and as a result, they have shown an impressive increase in value in recent years.

Mint five dollar Calvin Coolidge plate blocks are a favorite with serious investors and collectors. Because every sheet of one hundred stamps contained just *one* plate block, theoretically, ninety-six mint singles exist for every plate block. Yet, as incredible as it seems, with nice mint singles selling for $100 each, a beautiful plate block may be purchased for just a few additional dollars!

In the 1978 edition of the Scott Catalogue, these plate blocks list for $500. Because we were fortunate to recently obtain a small group of these plate blocks, we can offer them on a one-per-order basis at 10% off catalogue! That means you may purchase one of these scarce plate blocks for just $450! Each is *never hinged* and is well centered — truly a beautiful and desirable item. Order soon. At a 10% savings, these plate blocks may not last long!

# U.S. TRANSPORTS Scott #C25-C31

The market for United States airmail stamps has never been stronger and the supply of many issues is rapidly being exhausted. This includes the 1941-1944 "Transports" which have long been overlooked. Today, this set is becoming one of the "blue chips" of the entire U.S. airmail series! The "key" stamp in this set is the fifty cent value. According to the most recently available figures, this stamp has the lowest printing of any U.S. airmail stamp within the last thirty years!

We believe now is the time to add this attractive set to your collection. We currently have several sets in stock, all in fresh, never hinged condition. Place your order today for this blue-ribbon item.

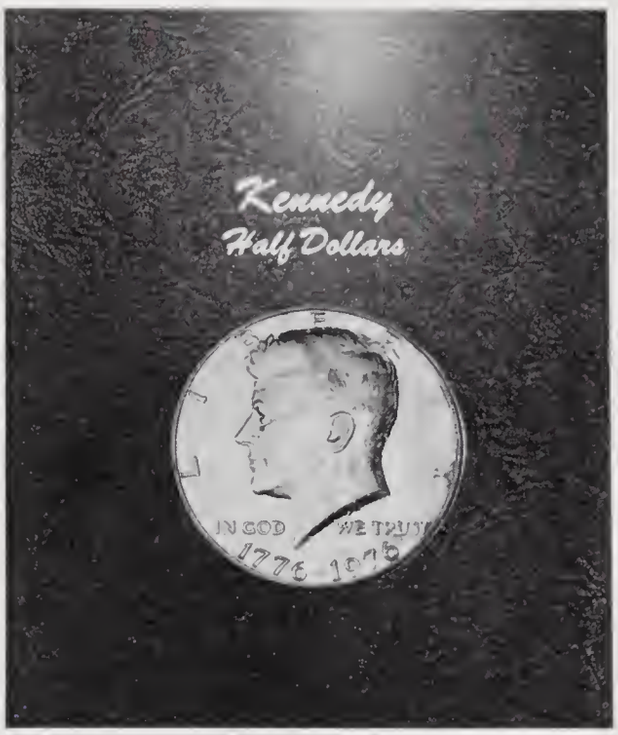
# The Kennedy Collection



In the near future, Congress will have to answer some tough questions concerning this nation's coinage. One of the problems it will have to face is the possible elimination of the half dollar denomination. TOTAL ELIMINATION!

The Kennedy half dollar has only been issued for just a few short years. Yet in that short time, it has experienced frequent change. For example, in 1964, the Kennedy half dollar was composed of 90% silver. The following year, its silver content was reduced to 40%, and finally in 1971, all silver was removed. In addition, the design of the Kennedy half dollar was changed for two years in celebration of the Bicentennial.

With its possible elimination in sight, now may be a good time to give serious consideration to the Kennedy half dollar. We currently have several twenty-six piece Kennedy coin sets available for just $99 each. These sets are mounted in a deluxe bookshelf style album and will include a mint state example of every half dollar issued for circulation from 1964 through 1976. Also included will be eight popular *proof-only* San Francisco issues dated from 1968 through 1976. Further, each set will contain the scarcest of all Kennedy half dollars — the silver 1970-D! This coin was originally available only as part of the 1970 mint set and like the proof-only issues, *none were released for circulation!*

Its elimination could easily create a strong demand for the Kennedy half dollar. Don't wait until this happens! Place your order for this attractive set *today*.

# San Francisco Proof Set Portfolio 1968-1977

United States proof set production underwent a drastic change in 1968. After a three year absence (1965-1967) because of a nationwide coin shortage, proof sets were once again issued — but this time from the San Francisco Mint! Not only that, but they were now being issued in specially designed hard plastic cases. But even more important were the *proof-only* coins contained in these sets.

From 1950 through 1964, the Philadelphia Mint issued for circulation every denomination which is included in the proof sets. However, beginning with the San Francisco Mint's proof set production in 1968, these sets began to contain coins *without* a circulation-strike counterpart. In other words, from 1968 through 1977, forty-three (43) of the coins contained in these sets were issued only in proof! The *only way* millions of coin collectors can fill the empty Proof-only holes in their coin albums is by purchasing *proof coins* — the very same proof coins included in the proof sets offered in this portfolio! These sets are from the following years:

| | | | | |
|---|---|---|---|---|
| 1968 | 1970 | 1972 | 1974 | 1976 |
| 1969 | 1971 | 1973 | 1975 | 1977 |

Save $6.50 with the purchase of this portfolio! If purchased individually, these ten proof sets would cost $116.50. However, by purchasing this portfolio, you can obtain all ten sets for only $110. Order your "S" Mint portfolio today!

# THE DOOMED DOLLAR

## Its time may be running out!

We may be witnessing a very important numismatic occurrence in the near future — the end of the Eisenhower dollar. If true, then a glorious era of numismatic history which began in 1794 with the issuance of the first dollar will come to an abrupt end.

Congress is planning to closely examine the entire coinage system of the United States in early 1978. There is a strong belief in the numismatic fraternity that the Eisenhower dollar will be replaced with a smaller circulating dollar. If this happens, then the Eisenhower dollar could easily become a very popular item!

The Eisenhower dollar set we are offering consists of 26 coins — one of every date and every mintmark including all *silver* and *proof* issues from 1971 through the Bicentennial year of 1976. Although this set covers just six short years (1971-1976), several desirable and low mintage coins are included. As a matter of fact, sixteen (16) of the dollars included in this set were never issued for circulation! The *total* mintage of these sixteen coins is *less* than one third of those struck for circulation in just one year, 1972!

The twenty-six coins comprising the 1971-1976 set we are offering are shown. Their mintage figures are in parentheses.

| | | | |
|---|---|---|---|

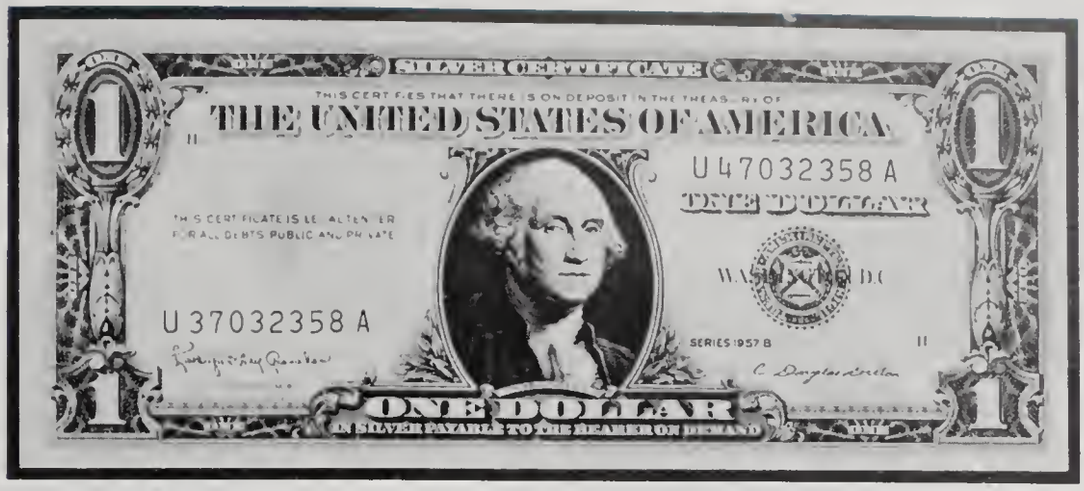
# "WHAT'S WRONG WITH THIS SILVER CERTIFICATE?"



We have a lot of fun asking people this question, because although something is indeed very much wrong with this note, most people don't recognize it immediately. That's probably how it escaped the watchful eye of the Bureau of Engraving and Printing (BEP) in Washington, D.C.

Spot the error yet? Look at the serial numbers. The lower left one begins with U370, while the upper right begins with U470 – mismatched serial numbers!

No question about it! Genuine error notes such as this one are truly rare. A recent study by the BEP indicated that the percentage of errors that actually escape detection and reach the public is less than 1 in 100 million! And with the BEP now experimenting with laser beam currency inspection equipment, all currency errors will one day become extremely rare!

You'll enjoy owning this fascinating note, especially when you show it to friends, family and business associates, because it is always a source of surprise and amazement. Best of all, this error is in crisp, Uncirculated condition, *the finest you can obtain.* You can even acquire a pair of consecutively mismatched numbers at special savings! # United States Double Eagles For The Demanding Collector

Saint-Gaudens Design

Liberty Head Design

The largest United States gold coin struck for circulation was the twenty dollar gold piece (Double Eagle). This coin is larger than a half dollar and contains almost one ounce of gold. It was issued in two basic types — Liberty Head (1850 to 1907) and Saint-Gaudens (1907 to 1932).

The Double Eagle has become very popular with collectors. Not only are people drawn to this coin for its beauty and gold content, but also because of the era it represents — the "good old days".

If you would like to add a beautiful and prestigious coin like the Double Eagle to your collection, now is the time! We have several pieces in stock — both the Liberty Head and Saint-Gaudens types in MS-60 and MS-65. They are accurately graded and fully lustrous. We know you will be pleased!

# Rare Tonga Overprints

In 1963, the British Commonwealth nation of Tonga issued a set of embossed gold foil stamps. These stamps were the exact replicas of the gold coins Tonga issued the previous year — the first gold coins of Polynesia! Collectors the world over were quick to purchase this unusual stamp series.

Early in 1965, the government of Tonga took its limited unsold stock of these gold foil stamps and revalued them by obliterating the original denomination by counterstamping, and added a new denomination with colored foil. These overprints are very rare and less than 3,000 sets in mint condition could be assembled today!

Two distinct sets of the rare Tonga overprint gold foil stamps exist. One is the regular postage set, the other an airmail set. Each contains six different denominations. While our supply lasts, either set may be obtained in mint, uncancelled condition from Paramount Philatelics. Due to their rarity, we request you limit your order to just one of each set.

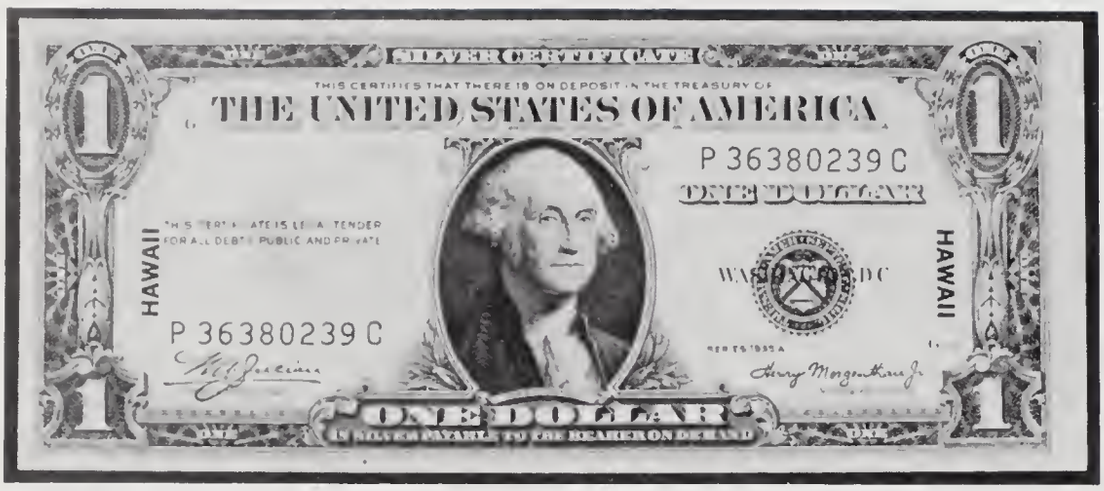
# Japan Attacks Hawaii

## EMERGENCY CURRENCY PRINTED



On December 7, 1941, 350 Japanese fighter planes swarmed down on the Pearl Harbor Naval Base, U.S. Territory of Hawaii. When it was all over, 3,435 men were dead and eight battleships were sunk or damaged. America declared war on Japan.

As a precaution against the Japanese capturing large amounts of American currency and using the money to damage our economy, the U.S. Treasury printed special currency for the use in Hawaii and the South Pacific.

The object was to make the currency easy to identify — if large amounts fell into enemy hands, the U.S. could declare the notes worthless. First, the Treasury Seal and serial numbers were changed from the normal *blue* (Silver Certificates) to *brown*. "HAWAII" was overprinted vertically on the front and in large block letters on the back.

No paper money collection can be complete without these fascinating and historically important notes, which are still fully legal and redeemable. Our regular price for the World War II "HAWAII" overprint note in Crisp, Uncirculated condition is $24.50, but for this special offer your price is just **$19.50** — or you can order two consecutively numbered notes for only **$37.50!** Order today; our supply won't last long at this price.

# A WORLD FAVORITE

As an autonomous country during the 1920's and 1930's, Latvia, now part of the Soviet Union, produced several very attractive coins. These coins are a favorite of collectors the world over and are eagerly acquired whenever encountered. Among the most popular are Latvia's three silver coins — the *only* silver coins Latvia ever issued. These three coins are the 1 Lats, 2 Lati, and 5 Lati. With an already small original mintage, it is very possible that many of these silver coins did not survive the forty-five years which followed their issuance. Undoubtedly, the Second World War and the silver melts took their toll. But Paramount has been fortunate to locate a small quantity of these popular and historical coins and have mounted them in a specially designed custom hard plastic holder. All three coins will grade *Very Fine* or better and will feature the Latvian Coat of Arms. The obverse of the 5 Lati shows the profile of a young female, symbolic of Latvia. The reverse of the other two coins shows the date and denomination surrounded by a wreath.

One of the most popular fields of world coin collecting is the coinage of countries which no longer exists. There are many such countries, but perhaps the most popular and best known of all is LATVIA. This popularity coupled with the limited availability of Latvian silver coins combine to make this attractive three-piece silver set a certain favorite with collectors. Place your order today!

# Save Over $7 On This Pair of Indians!

A local collector, who had been buying coins from us for many years, stopped by our table at a recent show and sold us his entire collection which included a small accumulation of mint state cents from his parents' birth years. There is nothing unusual about this except that his parents were born in 1899 and 1909!

We have decided to take one of each date and offer the pair for only $69.95, representing a *savings of over $7* from their regular price of $77.50. Each Indian cent is conservatively graded MS-60 and exhibits considerable mint lustre. This offer is also a wonderful opportunity for the type set collector who wishes to obtain an uncirculated nineteenth and twentieth century Indian cent.

# ARE YOUR INVESTMENT DOLLARS WORKING AS HARD AS YOU ARE?

In this world of fast paced living there are few things that can be counted on. One is of course taxes, another is our spiraling cost of living. Yes, inflation is capable of consuming your savings, threatening your standard of living and most importantly, minimizing the value of your retirement portfolio. There are very few investments with a growth potential steadier and faster than the march of present day inflation. A six or eight percent return on your investment does not even put you ahead of daily rises in the cost of living. There are many investments to be made but few return profits greater than ten to twelve percent a year.

There is, however, an increasing number of investors who have found a way to neutralize the rise in the cost of living and earn more than inflation takes away. They are realizing fifteen to twenty percent or higher per year on their investments, over long periods of time. The investments they are making? RARE COINS!

The Paramount Investors Club is the perfect vehicle to assist you in assembling a potentially profitable collection of rare coins. By joining the Paramount Investors Club you are assured of getting high quality coins at fair market prices. And to guarantee this fact, we enclose with each shipment of coins a certificate of authenticity which is your iron clad guarantee that each coin you receive is fairly priced, properly attributed and correctly graded. This certificate is personally signed by an expert member of our professional staff who has carefully selected and examined the coins sent to you.

Members also have the first opportunity to purchase the choicest and most desirable coins from Paramount's unmatched inventory that is worth in excess of five million dollars. There are other important advantages to belonging to this unique club. If you have a retirement plan, you may be able to invest for your profit sharing or pension trust. Also, the profits made on your rare coin investment are eligible for taxation at favorable capital gains rates.

Many people are now building investment portfolios of rare coins that should provide them with outstanding profit potential in the years ahead. We think the Paramount Investors Club is perhaps the best way to do just this. Don't you think you should join them?

## Quality Coins Will Be Selected For You By Our Professional Staff

Carefully assembled collections of high quality rare coins have often brought their owners two, three, or four times the original price paid within less than ten years! Many people have assembled such collections by carefully studying coins, learning how to accurately grade them, knowing the genuine from the counterfeit, and by knowing which coins are particularly scarce and underpriced. In short, they have acquired their collections by being knowledgeable numismatists. But it takes time to gain this kind of in-depth knowledge and most people in today's fast paced world do not have that much time to spend.

For our customers, the Paramount Investors Club and Paramount International Coin Corporation are the perfect answer. By becoming a member of this unique Club, you will be able to utilize the knowledge and experience of the most respected company in the numismatic field to help you assemble your collection of rare coins.

It is easy for you to become a member of the Paramount Investors Club. Just fill out and mail the attached Membership Application Form. A member of Paramount's experienced and professional staff will then personally select coins for you that he feels offer maximum investment potential. Each coin will be individually graded, priced, and sent to you for your approval. You will be the final judge as to whether or not the coins are suitable for your collection. If any are not completely satisfactory, you need only return them within 30 days for an immediate replacement or substitution. You do not make payments in advance and you only pay for the coins you decide to retain. The amount you wish to spend on your collection may be increased and decreased at your discretion, and membership in the Paramount Investors Club may be cancelled without obligation at any time.

As a member of the Paramount Investors Club you will receive prompt, personal attention to all your questions and requests. Your collection will be continually reviewed by a member of the Paramount staff and you will be given the first opportunity to purchase the most desirable coins from the millions of dollars worth of rare coins that Paramount handles every year. You will automatically receive special price lists and other publications that will keep you abreast of the exciting rare coin market.

Our staff at Paramount International Coin Corporation invites you to join the Paramount Investors Club. By doing so, you will be taking the first step toward assembling your own high quality collection of rare coins.

NOTE: For the best possible results, rare coin investment must be considered on a long-term basis (five to ten years).

## This Coin is Scarce in Mint State!

Contained in the Redfield collection were a small number of 1883-S Morgan silver dollars in *Mint State 65!* We stress the quality of these coins because most of the so-called "Uncs" we have seen on the market today are nothing more than cleaned or "whizzed" AU's! But not the ones we offer! *These are honest-to-goodness MS-65's!*

Jim Osbon in his *Silver Dollar Encyclopedia* confirms what we have noticed. He states that the 1883-S " . . . is very common in the lower grades through AU-50. Even AU-55 'sliders' are not rare." He further states that "probably less than one percent of the pieces seen on the market are Mint State." He also gives it an investment ranking of 4th! As you can see, this coin is scarce in Mint State. The fact that the ones we are offering are choice Mint State 65 makes this offer even more exciting!

The supply of Mint State 1883-S dollars is not enough to meet the collector demand for an indefinite period. With new silver dollar collectors entering the market every day, this demand will only intensify. Order yours today!

## SPECIAL OFFER ON QUALITY UNITED STATES STAMPS

Perfect for the growing stamp collector, Paramount Philatelics has assembled a special United States stamp collection containing only quality commemorative and airmail stamps in the finest condition. None of the stamps have ever been hinged, and all are as bright and fresh as the day they were printed. Of special importance is the fact that this collection will not include any recently issued stamps. It will only include stamps with *proven collector value.* Better still, we are offering this outstanding collection for *below* its catalogue value!

Because of the pristine, never hinged quality of the stamps comprising this collection, a specially designed album will be included so that every stamp in this offer may be displayed without the aid of stamp hinges or mounts. This is very important since collector, dealer and investor demand is strongest for mint (unused) stamps which have never been hinged.

Total Scott Catalogue value of the stamps contained in this collection will be *at least $75.* But while quantities remain, this specially assembled collection is available for just $69.50, and the album will be included at *no additional cost!* And don't forget, the stamps you will receive are in choice mint condition — nicely centered and never hinged. That, alone, guarantees the desirability of this collection. Place your order today.

# Popular Silver Dollar Type Set From Canada

Canadian silver dollars are known throughout the world for their exquisite beauty and rich detail. Among the most popular of all are the six only-year-of-issue 80% silver commemoratives issued between 1935 and 1967. These are the only silver commemorative dollars of this type Canada ever issued!

We have taken these six different silver dollars and have mounted them in a custom plastic holder. These six silver dollars are:

1935 – George V, Silver Jubilee Commemorative
1939 – George VI, Royal Visit Commemorative
1949 – Commemorates Entry of Newfoundland into the Confederation
1958 – British Columbia Commemorative
1964 – Commemorates the Charlottetown Meetings which led to Canadian Independence
1967 – Issued to Commemorate Canada's 100th Anniversary

Every coin comprising each set has been *hand-selected* for its brilliance and quality by a member of Paramount's Rare Coin Department. Of special importance is the fact that their combined mintage is quite small. For comparison, over *ten times* as many Eisenhower dollars were issued in 1971 than this combined mintage!

Naturally, quality coins such as these Canadian silver dollars are not available forever. That is why we say – order now!

# U.S. GOLD PORTFOLIO

Are you willing to let an amateur builder construct your house? Of course not! Yet some people are perfectly content to give their hard earned money to an amateur rare coin "Investment Counselor", hoping this person will construct a sound investment portfolio.

The construction of a house or portfolio is very similar. For both, you need qualified professionals — persons with the knowledge and experience their profession demands. Only these professionals can provide the solid foundation necessary for future construction. This is very important because upon this foundation will rest the walls and roof which provide the protection and shelter you deserve.

Thousands of satisfied customers have turned to Paramount for advice in the construction of their investment portfolios. They know that Paramount, the world's largest international coin dealer, is a leader in the Rare Coin industry. They know the dedicated *Paramount Professionals* include several leading experts within the field of numismatics and are backed by years of experience. Paramount maintains the largest rare coin inventory in the industry giving our customers the widest selection of quality items possible. We also have one of the largest numismatic libraries imaginable enabling our professional coin experts to conduct the research so essential in today's investment counseling. It is only logical that so many people have chosen Paramount as the *one* dealer with whom they have trust and faith.

The *Paramount Professionals* would like to put their knowledge and experience to work for *YOU!* That is why we are now offering UNITED STATES GOLD INVESTMENT PORTFOLIOS.

Available in lots of $1000, $2500, $5000, $10,000 and $25,000, each investment portfolio will consist of carefully selected United States gold coins. The minimum grade of *any* lot will be EF-40 while many will be Mint State 60 or better. This is to provide the greatest opportunity for investment return as experience has shown higher grade coins appreciate in value more rapidly than lower grade. No lot will contain damaged, or otherwise undesirable pieces. Further, each lot will be specially priced so the combined cost of all the coins in any lot will be *more* than the single lot price you pay.

Each portfolio is individually assembled. If you have any preference as to how you want your portfolio structured, please let us know. If possible, we will arrange your portfolio to meet your request. But no matter which portfolio you choose, we know you will be pleased.

U.S. Gold Portfolio 1 ..... $1000.00

U.S. Gold Portfolio 2 ..... $2500.00

U.S. Gold Portfolio 3 ..... $5000.00

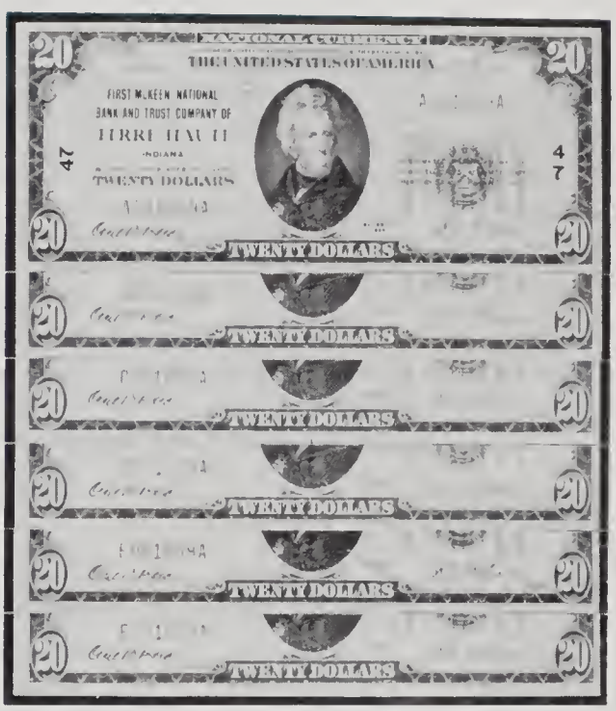
# This is Your Last Chance!

## Buy Now Before the Coming Price Increase



This is your final chance to obtain at last year's price a scarce, original *cut sheet* of six $20 notes from the First-McKeen National Bank and Trust Company of Terre Haute, Indiana. That's right. After March 31, 1978, we will be forced to raise our price for this desirable set to $399.50. But until then (providing, of course, that we do not sell out) you may purchase this six-piece cut sheet of notes for the same price it was initially offered in the November *Collector* — just $349.50!

The few six-piece cut sheet sets we have in stock are all that remain of an original group purchased at last year's American Numismatic Association convention. Every note is in crisp, NEW condition — as choice as the day they were printed. Each set consists of six $20 notes, all with *matching serial numbers!* The name of the bank which issued them, the First-McKeen National Bank and Trust Company of Terre Haute, Indiana, is printed in bold black letters on the front of every note. Also found on the front is the bank's charter number — 47. This is a very low number, and as such, is popular with collectors.

The entire field of paper money collecting is increasing in popularity. Many collectors are concentrating on notes like those contained in this offer — notes usually referred to as "National Currency". This growing demand is adding pressure on the already small supply.

Because of this demand, we must readjust our prices in the immediate future. Before we do, however, we are allowing you one *last chance* to obtain this six-piece uncut sheet at last year's price. These notes are legal tender and are *blue-ribbon quality.*

Take this opportunity to send your order in today. Whatever you do, don't wait until April 1!

## Reference Work Now Available

The brand-new sixth edition of *United States Pattern, Experimental and Trial Pieces* by Dr. J. Hewitt Judd is now available! This 276 glossy page hardbound book has been completely reviewed, revised, and updated. It contains a virtual total price revision based upon a two-year study by A. Kosoff and a panel of several dozen contributors. It will contain information not found in previous editions. This includes the controversial 1964 Peace dollar, the 1974 aluminum cent, mint errors of the Eisenhower dollar, and other patterns and mint errors of recent times.

A very important reference work, this valuable book will also provide many hours of interesting and enjoyable reading. You will learn the story behind our coinage. Follow the history of the motto "IN GOD WE TRUST". Did you know that other mottos such as "GOD AND COUNTRY" and "GOD OUR TRUST" were considered? This, and other startling pieces of information, such as the attempt in 1874 for an international coinage, can be found in this amazing book.

*United States Pattern, Experimental and Trial Pieces* is considered by top coin experts to be one of the most valuable reference works of United States coinage. Clearly, there is no other book like it.

# THE 1973 COLOMBIA 1500 PESO GOLD COIN

*Photo enlarged to show detail.*
*Actual size is 27 mm.*

In 1973 the Bank of the Republic of Colombia marked its 50th Anniversary by issuing a commemorative gold coin with one of the most unusual designs in the nation's history. At the same time, the 1500 Peso broke the centuries-long tradition of featuring Simon Bolivar on every Colombian coin.

A slender urn of almost solid gold dating back to the pre-Colombian era — truly a rare archaeological treasure — is portrayed on the beautiful 1500 Peso. The urn is believed to have been created by the Chibcha Indians who lived in Colombia long before Spanish settlers colonized the area in the late 1400's.

Because Colombia's first gold coinage was struck by the first Colombian Mint — established in 1622, 170 years before the U.S. Mint began operations — there is tremendous collector and investment interest in Colombian coinage. This may well be the reason that the Proof 1500 Peso coin has increased over 66% in value while the Brilliant Uncirculated 1500 Peso is worth an impressive 143% over its original issue price!

There is no doubt about it; this is one for your collection! Exciting history and unlimited potential plus! Send for yours today.

# NOW YOU CAN SAVE SILVER!

Why save gouged, scraped, and dulled non-silver Eisenhower Bicentennial dollars as a remembrance of this nation's two hundredth anniversary when you can own brilliant *mint state* bicentennial dollars struck in silver?

The Bicentennial dollars we offer were struck at the famous San Francisco Mint and are 40% silver. Featuring the dual 1776-1976 dates, they were originally placed into specially prepared Bicentennial coin sets by the mint and sold directly to collectors. *None of these silver mint state dollars were ever released for circulation! You* may now obtain this popular and attractive coin in specially assembled rolls containing twenty pieces.

Each silver dollar has been selected by a member of Paramount's rare coin department for its brilliance and beauty. Considering that one of the first matters Congress may attend to in 1978 is a coinage reform bill which includes the possible elimination of the Eisenhower dollar, this is a wonderful opportunity to acquire twenty pieces of a silver dollar which may prove to be a very desirable coin in the future. Be certain to place your order today!

One Roll (20 Pieces) Eisenhower Bicentennial Silver Dollars, Mint State 65 ..... $109.00

# Redfield Silver Dollars an Individual Listing

Here is a listing of Mint State 60 silver dollars from the famous Redfield Collection. These silver dollars did not meet Paramount's strict grading standards which we insist upon for our MS-65 dollars, yet many of these dollars are equal to, and even exceed, the "Gems" and "Superb BU's" offered by many other dealers. And like all mint state Morgan and Peace dollars sold by Paramount, these coins carry a full *SIX-MONTH RETURN PRIVILEGE.* Why don't you place an order today and see for yourself?

# FROM ISRAEL. . .

## The Festival of Lights Commemorative

Israel has issued some of the most beautiful commemorative coins ever seen. As part of their commemorative series, a Chanuka (Festival of Lights) coin has been issued every year since 1972. Featuring a different Menorah (candelabrum used in Jewish worship) each year, the Chanuka commemorative series has become very popular with collectors.

We currently have available a small group of the silver 1973 Chanuka 5 Pound Commemoratives in proof. Featuring a Babylonian Lamp, each coin is mounted in its original case of issue and bears the 'mem' mark.

With a mintage of just 45,000 pieces, we don't expect the small number we have on hand to last long. Order soon.

# A WALKING LIBERTY HALF DOLLAR OPPORTUNITY

Here's an opportunity for you to pick your own *mint state* Walking Liberty Half Dollar starter set. Simply select at least *three different* dates from the half dollars listed below, total their cost, and deduct 5%. It's that easy! And as an extra special, with each order over $75, we will include a deluxe Walking Liberty bookshelf style half dollar album at no additional cost!

We guarantee that every coin you select from this list will be fully lustrous and strictly mint state. This is very important because we have seen many so-called "Uncs" being offered elsewhere which, in fact, are slightly circulated coins cleaned or polished to *resemble* mint state. Don't be lured into purchasing these overgraded, inferior coins! Insist upon fully mint state specimens. *Insist upon Paramount.*

Choose your starter set from the following dates and mint state conditions.

# Silver Type Sets From Russia and the Soviet Union

## Set A - Russia, The Last Silver Coinage of Czar Nicholas II

This is an important six-piece all silver set because it numismatically represents the last silver coinage featuring the bust of a czar. The bearded bust of Nicholas II is featured on the two largest silver coins — the 50 kopecks and one rouble. All six coins carry the ornately designed two-headed crowned Imperial eagle. Included are these denominations:

| Denomination | Silver Fineness | Diameter | Denomination | Silver Fineness | Diameter |
|---|---|---|---|---|---|
| 5 Kopecks | .500 | 15 mm | 20 Kopecks | .500 | 22 mm |
| 10 Kopecks | .500 | 18 mm | 50 Kopecks | .900 | 27 mm |
| 15 Kopecks | .500 | 20 mm | One Rouble | .900 | 34 mm |

This six-coin set is mounted in a custom plastic holder which allows easy display and offers maximum protection for these historic coins. The six coins will grade Fine or better.

Set A ..... $18.50

## Set B - U.S.S.R., Silver Coinage (1924-1931)

Set B covers the silver coinage of 1924-1931, and were the last silver coins issued for circulation. The 50 kopecks and one rouble feature an industrial worker, symbolic of the modern Soviet Union. The hammer and sickle dominate the reverse. Included in this five-coin silver set are:

| Denomination | Silver Fineness | Diameter | Denomination | Silver Fineness | Diameter |
|---|---|---|---|---|---|
| 10 Kopecks | .500 | 18 mm | 50 Kopecks | .900 | 27 mm |
| 15 Kopecks | .500 | 20 mm | One Rouble | .900 | 34 mm |
| 20 Kopecks | .500 | 22 mm | | | |

These five coins, representing the last circulation silver issues of the Soviet Union are packaged in a custom display holder. The coins in this set will grade Fine or better.

Set B ..... $22.50

# 29-Piece Canadian Silver Dollar Collection

Canadian silver dollars are well known for their attractive designs and very low mintages. Struck between 1935 and 1967, with the exception of the war years, 1940 to 1944, these *80% solid silver* coins are extremely popular with collectors in the United States. You can now join these collectors! We have assembled several sets containing twenty-nine different specimens. Each coin is in brilliant Mint State 65 condition. Six are "only-year-of-issue" commemoratives. Six have mintages under 95,000 pieces. Several dates, especially those before 1950 are very difficult to locate in strict mint state. Among the many coins contained in these sets are:

1935 – George V, First Year of Issue, Silver Jubilee Commemorative and One-Year Type
1936 – George V, One-Year Type
1939 – George VI, Royal Visit Commemorative and One-Year Type
1948 – Key Date, Low Mintage of 18,780 Pieces
1949 – Newfoundland Commemorative, One-Year Type
1958 – British Columbia Commemorative, One-Year Type
1964 – Charlottetown Commemorative, One-Year Type
1967 – Canadian Centennial Commemorative, One-Year Type

A major concern when assembling a Canadian silver dollar collection is condition. We have *hand selected* every coin in these sets for their quality and brilliance. Only MS-65 coins will be included.

If you appreciate beauty and value, then this Canadian collection is for you!

# Specially Priced Silver Proof Set Portfolio 1955-1964

This portfolio will contain ten different United States proof sets from 1955 through 1964. While certainly not "Days of Old", this period does represent a time when many of today's coin collectors had not yet started their collections. And that's a shame because several events of numismatic importance took place during that time. Included among these events were:

- the last 90% solid silver coin issued by the United States
- the last of the Franklin half dollar
- the first of the Kennedy half dollar
- the only 90% solid silver Kennedy half dollar (1964)
- the last United States proof set to be struck at the Philadelphia Mint

The ten proof sets comprising this historic portfolio are from these years:

| | | | | |
|---|---|---|---|---|
| 1955 | 1957 | 1959 | 1961 | 1963 |
| 1956 | 1958 | 1960 | 1962 | 1964 |

Save $6 with the purchase of this portfolio! If you were to individually purchase the ten proof sets comprising this portfolio, their combined cost would be $115. But you can save $6 and purchase all ten sets for only $109! This is an unbeatable proof set portfolio. Order now — while it is still available!

# The First Year The Only Year

1964 was not only the first year of issue for the Kennedy half dollar, it was also the only year this coin was made of 90% silver! *The only year.*

We have located a few rolls of this popular half dollar in *proof.* These low mintage, mirrored-surface coins are exquisite. Less than 4 million 1964 proof Kennedys were struck. *This represents only 1% of the entire 1964 half dollar mintage!* Compare this mintage with that of other desirable United States coins, and you can see why we are suggesting that you should order soon.

# Rare Nebraska Overprints at Below Catalogue

In 1929, the United States issued the famous Nebraska Overprint stamps as part of an experiment to thwart post office burglaries. These stamps remained in use for one year, after which the experiment was deemed unworkable and abandoned.

Today, the eleven-piece Nebraska Overprint set in mint condition is *very rare* and extremely popular. No more than 530,000 mint sets could possibly exist. In actuality, the true figure is much less because tens of thousands of these stamps were undoubtedly used for postage. This blue-chip set has also shown a tremendous increase in value within the last two years — over 40% according to Scott Catalogue values!

Save! Even though it catalogues for $138.10, you may obtain this set for a very *substantial savings!* Paramount Philatelics currently has ten Nebraska Overprint sets in mint, never hinged condition. While they last, you may secure a set for just $115 — a savings amounting to over *16% off catalogue value.* Hurry! Once these sets are sold, it may be quite a while before we are in the position to once again offer them.

# The Famous Dixie Bank Note

Ever wonder how the land of cotton — the *deep* South — came by the nickname of "Dixie"? Well, you'll probably be surprised to learn that "Dixie" came from early bank notes issued by the Citizens' Bank of Louisiana.

During the period before the Civil War, one of the most prominent banks in the South was the Citizens' Bank in New Orleans. Because of the large population of both French and English-speaking people there, the bank printed the notes in both languages. So when this $10 note was issued, DIX (French for ten) was printed on the back in large, bold letters. Soon these $10 notes were popularly called "Dix's" or "Dixies", and the entire state of Louisiana in which they circulated became known as "the land of the Dixies". Later Dan Emmett wrote the song *Dixie* and made the word famous across the nation.

These lovely, historic notes portray an early paddle-wheel steamer and were printed in red and black by the National Bank Note Company, who later helped produce our early U.S. government bank notes. Each note is in choice, Uncirculated condition and guaranteed to please! Order your 118-year-old Dixieland bank note *today.*

# 1916 HALF DOLLAR
# Popular First Year of Issue

First year of issue coins have always been extremely popular with collectors. And of these, what can be more exciting than the first year of issue for a truly beautiful coin?

In 1916, the United States unveiled the Walking Liberty half dollar. "Beautiful", "Outstanding", "Gorgeous", are some of the superlatives which must have been murmered when people first saw this coin. The appreciation for true beauty does not fade, and today, similar comments are heard from people when they first see a Walking Liberty half dollar in glistening *mint state*.

Our rare coin buyers have made a concerted effort to obtain a stock of 1916 Walking Liberty half dollars in Mint State 65. But all they have to show for their efforts are just three specimens. True, many more pieces were examined, but only these three pieces were good enough for our buyers to call MS-65.

If you have been searching for a truly nice specimen of the 1916 Walking Liberty half dollar, look no further. Each coin we offer is fully original and has been conservatively graded. We are certain you will be pleased. Place your order today.
